

8.2 DISABILITY SPECIAL PROJECTS

ServeNebraska conducts a number of disability-related activities beyond inclusion, training, providing 'reasonable accommodations' and facilitating disability preparedness initiatives.

ServeNebraska provides occasional funding for special service projects and mini-grant opportunities that further engage Nebraskans with disabilities in service. Additional promotional activities, such as inclusive recruitment events for AmeriCorps, are also held periodically in an attempt to improve Nebraska's inclusiveness in AmeriCorps.

A primary mini-grant special project supports Global Youth Service Day in April each year. Funds are available for applicants to sponsor service projects in local communities planned with youth with disabilities for youth with disabilities.

Other special project mini-grants are offered at any time during the year to focus on service projects that promote inclusion with and for persons with disabilities. Ongoing grant Requests for Applications will be available for inclusive projects in any of the following areas:

- Reasonable accommodations
- Inclusive website design
- Disability inclusion special projects
- Disability inclusion training (including scholarships to the national service inclusion conference)
